

# Special Pump

## ■ Air Hydraulic Pump

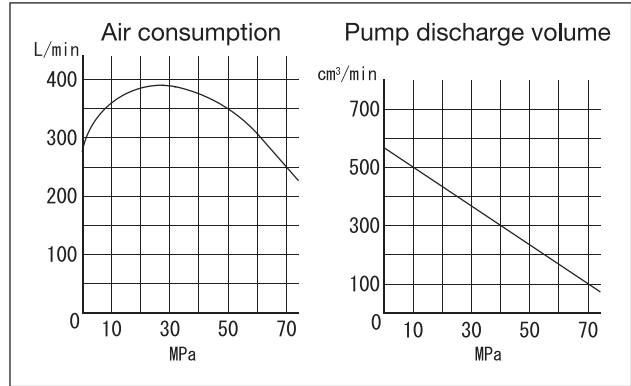

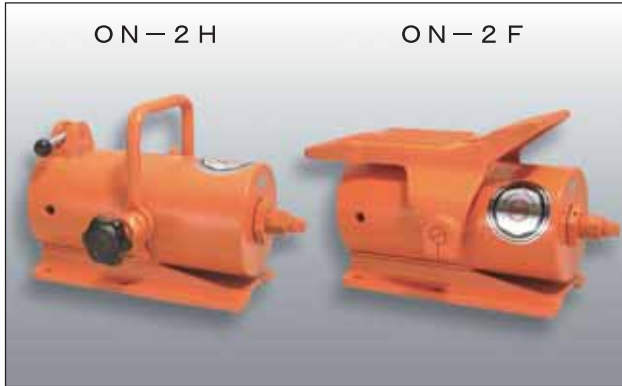

- The pump's piston is operated by the air source to generate a 70 MPa hydraulic pressure.
- Lightweight, compact, and easy to operate.
- Manual and foot operation types are available.
- A three-piece air set (regulator, filter, and lubricator) is necessary to use this pump.
- ON-5H-18 is available on request.

### Description of the type

ON — 5 H — 18

Hydraulic Pumps

## ■ Specification

Type	Supply air pressure (MPa)	Maximum operating pressure (MPa)	Tank effective oil level (L)	Attached operating valve	Approximate weight (kg)
ON-2H	0.55~0.7	70	0.5	Manual	10
ON-2F				Foot	
ON-5H	0.55~0.7	70	1.0	Manual	12
ON-5F				Foot	
ON-5H-18			18.0	Manual	45
